AFFIDAVIT

do hereby make oath and say that:

1. I, Nicole Dreyer, ID: 710825 0046 08 7, am an adult female currently residing at 24 Woodgate Road, Plumstead, Western Cape.

2. Additional Information regarding inability to pay school fees:

1. Ex-husband made false allegation of child molestation against my life-partner to get rid of him = reduced to single income and single parent household.

2) Need to seek treatment for resultant anxiety and emotional exhaustion for the mental and emotional abuse = loss of income and clients.

3) False allegations and public smear campaign by ex-husband that I am "Schizophrenic" and off meds to discredit me and remove support = loss of business referrals and income.

4) Perjury of ex-husband of history, facts and events = prolonged court process (18 months in court and still unresolved)

5) Lack of proper investigation, ethics, misconduct and broken protocol by BADISA = further prolonging court process

6) I have had to put my own case together, do my own legal admin and represent myself in court = lost billable working hours (self-employed)

7) Breaking of maintenance agreement by ex-husband and refusal to adhere to court order = had to return to court to address twice; lost billable working hours

8) Reneging of ex-husband to refund half medical expenses for Jed = loss of savings

9) Attempt by ex-husband to reduce maintenance in maintenance court = additional admin to provide relevant evidence and court appearances = loss of billable hours (case was dismissed by presiding officer)

10) 4th false allegation by ex-husband, now of "fraud" in Civil Court to get variation of the divorce order = I am having to defend myself in court and write all legal documents,

research Regional Court protocol = loss of billable hours

I, Nicole Dreyer, ID: 710825 0046 08 7, am an adult female currently residing at 24 Woodgate Road, Plumstead, Western Cape.

do hereby make oath and further say that:

11) I have Emphysema and am high risk for COVID and no longer have medical cover due to ongoing life circumstances and can not put myself or my elderly mother at risk = homeschooling; loss of billable working hours

12) My health deteriorates at times due to ongoing stress and I need to take time to recover = loss of income; loss of billable working hours

13) I am busy finishing off an additional learning module that requires unpaid for Clinical Observation Hours to complete the course in Hospitals and Treatment Facilities for mental health and addiction treatment = loss of billable hours

14) I have worked in between all of this in web development and have been trying to market another online business that I have built as well with a new partner that I have taken on = proof available; market and online shopping slow due to financial crisis of COVID-19

I am hoping that my financial situation will improve when I have completed my course and am able to work shifts in Hospitals and Treatment facilities but, due to the nature of this type of abuse and the effects that it has on survivors I am unsure of whether this will be possible.

My ex-husband is not practicing social distancing and is planning to attend psychedelic trance events again where there are drugs and alcohol used and where I do not believe social distancing and correct COVID protocol will be adhered to.

The Hospitals and Treatment facilities that I planned to work in have strict COVID protocol in place and staff are considered the high risk element as patients are tested and only admitted in full once they are cleared. These are total lockdown facilities and only staff enter and exit the premises.

BADISA have been unresponsive regarding the ongoing use of substances and SAPS have disregarded the broken COVI-19 lockdown regulations by my ex-husband in full.

I will not put patients at risk and may, as such, not be able to move into this line of work.

This after a year of study to do so.

In addition – my ex-husband is in contravention of the legal maintenance order again by suggesting this request for reduction of fees for our son. I take responsibility regardless due to the school making clear that both parents are responsible and myself having accepted this on admission of our son.

My ex-husband is using one of the top legal family firms in Cape Town to handle both current cases in court that requires a R15k retainer for their services and I bring this to the school's attention – again – although the school has been dismissive and unhelpful regarding the case of domestic violence in full thus far, as has the Department of Social Development.

I note, herewith, that Ms Siena of Kirstenhof Aftercare, is quoted in the report handed into Children's Court by BADISA in December 2019 as saying that, "Gaia told me that her mom was crazy."

I add that Ms Siena showed clear distaste for myself and my life-partner when we entered aftercare to fetch Jed and I believe that this was due to my life-partner being a man of colour, which we commented on briefly.

I also note, herewith, that my-exhusband frequently claims that he is a good Christian regardless of the fact that he uses alcohol and drugs reguarly and lies repeatedly to get his way. I request confirmation that Ms Siena is a practicing Christian from the school and note, herewith, that my life-partner would be assumed to be Muslim without further clarity being requested.

I find the fact that Ms Siena provided this information to BADISA and provided no account of Gaia's experience at home, before my ex-husband entered our family, questionably biased and racially motivated and remind the school that Gaia received the Trophy for best Academic student in Grade 1 when I was single parenting her prior to marrying Mark Holgate and the ensuing emotional and mental abuse.

I note herewith that I have informed Kirstenhof Primary repeatedly of the situation of domestic violence and have been repeatedly ignored.

I note, herewith, that I have 3 broken teeth due, accoridng to my dentist, to severe grinding at night from stress and who has asked me to wear a mouthguard while I sleep to protect them from further damage when he fixed the one. The remaining two I can not afford to fix, nor purchase a mouthguard and he has perscribed muscle relaxants to try and assist with the grinding at night.

I add that every particular regarding my financials produced for this matter and the information in this affidavit is entirely true.
